---

## SUMMARY

Ruby on Rails Developer with 2+ years of experience in building and maintaining web applications. Skilled in **Ruby on Rails, React.js, JavaScript, MySQL, and API integration**. Experienced in creating **RESTful APIs, user authentication, and performance optimization**. Strong understanding of **MVC architecture** and deployment using Git, Nginx, and Passenger. Quick learner and team player, focused on delivering **scalable and user-friendly solutions**.

---

## WORK EXPERIENCE

**Ruby on Rails Developer**                                          11/2022 – Present
*The Adroit*

- Developed and maintained **web applications** using Ruby, Ruby on Rails, React.js, JavaScript, and MySQL
- Created and managed **RESTful APIs** for smooth frontend and backend communication.
- Integrated **third-party APIs** such as payment gateways, FASTag, tracking APIs, and diesel transaction APIs.
- Improved **application performance** by optimizing database queries and reducing load time.
- Built secure **user authentication and role-based access control** using Devise.
- Deployed applications and managed servers using **Git**, **Nginx, and Passenger**.
- Worked with designers and team members to deliver features on time.

---

## CORE SKILLS

- Ruby
- JQuery
- SQL
- CSS

- Ruby On Rails
- API Integration
- HTML
- React.js

- Javascript
- MySQL
- Git

---

## PROJECTS

**Perfect Highway Pvt Ltd**

- Developed a **multi-role web platform** with dashboards for Admin, Truck Owners, and Staff Managers.
- Integrated **FASTag, SIM Tracking APIs, and JIObp API** for automated tracking and diesel transaction management.

- Added **KYC verification via API integration,** ensuring compliance and security.
- **Tech Stack:** Ruby, Ruby on Rails, MySQL, JavaScript, MVC
